

WT 2/H Positioning Bushing Kit

- For defined support of the workpiece pallet in positioning units
- Material: Steel

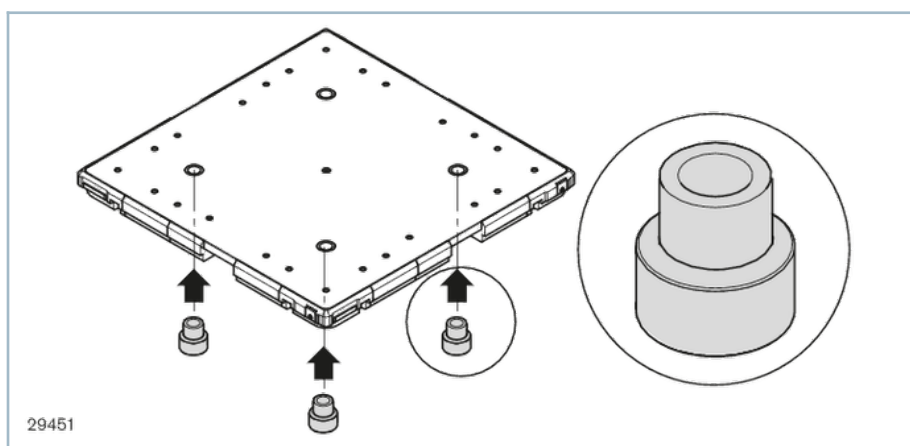

- Can be combined with all WT 2/H workpiece pallet carrying plates

Product description

To fulfill special needs, the workpiece pallets can also be individually configured in a design where the carrying plate is assembled by the customer. In addition to frame modules with different wear pads, various carrying plates, positioning bushings and all the necessary fastening elements are available.
