

Workpiece Pallet WT 1/K

- 3 standard sizes
- Double-sided prism slot for positioning in the positioning unit PE 1/P
- Mounting and installation options for mobile data tags of the identification systems ID 15, ID 40 and ID 200
- Replaceable outer soles

Product description

The WT 1/K is a particularly lightweight workpiece pallet made of plastic. There is a higher workpiece pallet load (workpiece + holder) than for other workpiece pallets due to the low workpiece pallet empty weight with a permissible total load of max. 3 kg.

The WT 1/K is especially suitable for positioning tasks in conjunction with the PE 1/P position unit. Use with the HP 1/P lift position unit is not possible.
