

Supporting bracket AL, lateral

- Plug-through screws, few screwed connections
- Easy to clean thanks to ample draining surfaces
- Simple realization of ascending and descending conveyor sections thanks to a holder with centering lugs that can be broken off
- Drilling aid for the simple fastening of drip trays, safety devices, etc.
- Supports can also be used in conjunction with STS sections
- Simple centering of the supporting brackets in the slot thanks to centering lugs
- Very simple assembly thanks to pluggable screw connection
- Easy-to-clean design with draining surfaces

Product description

The lateral supporting bracket is provided for the attachment to an 80x80 vertical strut profile. It is suitable for the construction of an alpine conveyor, for example.

- In the case of one-sided attachment, the lateral supporting bracket is only permissible for sizes up to 120
- The lateral supporting bracket can also be used for ascending and descending conveyor sections (up to 45°) by removing the centering lugs
